Room & Bathroom Freshener

MATERIAL SAFETY DATA SHEET

MSDS

Revision Date: 18/08/2022

Print Date: 18/08/2022 Version: 1.0

Section 1 - Identification of the Substance/Preparation and of the Company/Undertaking

ASIN:	B0B3S1FKDL
Product Name:	Aromahpure Room & Bathroom Freshener
-:Company Information:-	
Trade Name:	AVA International Private Limited
Trade Address:	Plot No. 83, Sector-53, Phase-V, HSIIDC, Industrial Estate, Kundli, Sonipat, Haryana, 131028
Phone Number:	+91 9999136296
Email:	lifeponto@gmail.com

Section 2 - Hazards Identification

Classification of the substance or mixture:-

	Flammable Flammable solids
	Irritant Acute toxicity (oral, dermal, inhalation)
	Health Hazard Specific target organ toxicity following single exposure

Flam. Gas 1; H220

Extremely flammable gas.

Press. Gas; H280

Contains gas under pressure; may explode if heated.

2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

H280 Contains gas under pressure; may explode if heated.

[Prevention]:

P210 Keep away from heat / sparks / open flames / hot surfaces - No smoking.

[Response]:

P377 Leaking gas fire - do not extinguish unless leak can be stopped safely.

P381 Eliminate all ignition sources if safe to do so.

[Storage]:

P410+403 Protect from sunlight. Store in a well-ventilated place.

[Disposal]:

No GHS disposal statements

Print Date: 18/08/2022 Version: 1.0

Section 3 – Composition/Information on Ingredients

PRODUCT NAME : Aromahpure Room & Bathroom Freshener

3.1 Substances

Not relevant (mixture)

3.2 Mixtures

The product does not contain any (other) ingredients which are classified according to present knowledge of the supplier and contribute to the classification of the substance and hence require reporting in this section.

Name of substance	Identifier	Wt%	Classification acc. to GHS	Pictograms	Notes	Specific Conc. Limits	M-Factors
Fragrance, mix true with 10 kinds of natural and synthetic spices; recipe is commercial secret			Skin Sens. 1 / H317				

Section 4 – First Aid Measures

4.1. Description of first aid measures

General

Move victim to fresh air. Emergency medical service if deemed necessary. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Remove and isolate contaminated clothing and shoes. In case of contact with liquefied gas, thaw frosted parts with lukewarm water. Keep victim warm and quiet. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

Inhalation

Remove to fresh air, keep patient warm and at rest. If breathing is irregular or Stopped, give Artificial respiration. If unconscious place in the recovery position and obtain immediate Medical attention. Give nothing by mouth.

Eyes

Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek Medical attention.

Skin

Remove and isolate contaminated clothing and shoes. Clothing frozen to the skin should be Thawed before being removed. In case of contact with liquefied gas, thaw frosted parts with Lukewarm water.

Ingestion

If swallowed obtains immediate medical attention. Keep at rest. Do NOT induce vomiting

4.2. Most important symptoms and effects, both acute and delayed

Print Date: 18/08/2022 Version: 1.0

Overview

EFFECTS OF OVEREXPOSURE: Overexposure may result in light-headedness, Staggering gait, giddiness, and possible nausea. Intentional misuse by deliberately Concentrating and inhaling the contents may be harmful or fatal. May cause eye and skin Irritation.

SIGNS AND SYMPTOMS OF OVEREXPOSURE: Headache, dizziness, nausea, And loss of coordination are indications of excessive Exposure to vapors or spray mists Redness and itching or burning sensation may indicate eye or Excessive skin exposure.

MEDICAL CONDITIONS AGRAVATED BY EXPOSURE: Pre-existing respiratory, skin, and eye disorders. See section 2 for further details.

Section 5 – Fire-fighting Measures

5.1. Extinguishing media

Fire involving Tanks: Some of these materials, if spilled, may evaporate leaving a flammable residue. Some of these materials, if spilled, may evaporate leaving a flammable residue.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Oxides of Carbon

Keep away from heat / sparks / open flames / hot surfaces - No smoking.

5.3. Advice for fire-fighters

Wear positive pressure self-contained breathing apparatus (SCBA). Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Structural firefighters' protective clothing will only provide limited protection. Some may burn but none ignite readily. Containers may explode when heated. Ruptured cylinders may rocket. Vapors may cause dizziness or asphyxiation without warning. Vapors from liquefied gas are initially heavier than air and spread along ground. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite. Fire may produce irritating, corrosive and/or toxic gases.

Section 6 – Accidental Release Measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions Wear protective equipment. Use spark-proof tools and explosion-proof equipment. Ensure that air-handling systems are operational. Ensure adequate ventilation.

6.2. Environmental precautions

Environmental precautions prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13. Should not be released into environment.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up Keep in suitable closed containers for disposal. Wear protective eyewear, gloves, and clothing. Refer to Section 8. Always obey local regulations. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Collect solids in powder form using vacuum with (HEPA filter). Evacuate personnel to safe areas.

Section 7 – Handling and Storage

7.1. Precautions for safe handling

Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the content of water to this chemical paste.
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace.

7.2. Conditions for safe storage, including any incompatibilities

Storage precautions	Store away from incompatible materials (see Section 10). Store in accordance with local regulations. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage. Bund storage facilities to prevent soil and water pollution in the event of spillage. The storage area floor should be leak-tight, joint less and not absorbent.
Storage class	Store and handling in accordance with all current regulations and standards. Keep separated from incompatible substances; see Section 10, "Stability and Reactivity".

Revision Date: 18/08/2022

Print Date: 18/08/2022 Version: 1.0

Section 8 – Exposure Controls and Personal Protection

<p>Engineering Controls</p>	<p>Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or dusts (total/reparable) below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment)</p>
<p>Personal Protective Equipment</p>	<p>Use under a fume hood Respiratory protection Not required under normal conditions of use. Subpart I, wear appropriate Personal Protective Equipment (PPE) to minimize exposure to this material. Respiratory Protection: Not necessary under normal Conditions.</p> <p>Skin and body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product Stable under normal circumstances.</p> <p>Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.</p> <p>Eye Protection: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.</p>
<p>Other skin and body protection</p>	<p>Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.</p>
<p>Hygiene Measures</p>	<p>Perform routine housekeeping. Wash hands before breaks and at the end of work. Avoid contact with skin, eyes, and clothing. Before wearing wash contaminated clothing.</p>
<p>Environmental</p>	<p>Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation</p>
<p>Exposure controls</p>	<p>In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.</p>

Section 9 - Physical and Chemical Properties

Colour	Green
Odour	Characteristic
pH	7
Melting point	Not determined
Freezing Point	Not determined
Initial boiling point	Not determined
Flash point	Not determined
Evaporation rate	Not determined
Flammability (solid, gas)	Not applicable to solid
Fat Solubility	Not determined
Partition coefficient	Not determined
Autoignition temperature	Not determined
Viscosity	>250 cp @20oC
Explosive properties	Not explosive
Oxidising properties	Not oxidising
Solubility	Soluble in water
Vapour pressure	Not determined

Section 10 - Stability and Reactivity

10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

No other adverse effects known.

10.4 Conditions to avoid

None.

Section 11 - Toxicological Information

11.1 Information on toxicological effects

Skin corrosion/irritation	No irritation expected.
Germ cell mutagenicity	No mutagenic effects reported.
Carcinogenicity	No carcinogenic effects reported.
Reproductive toxicity	No observed effect level.

Section 12 - Ecological Information

12.1. Toxicity

No additional information provided for this product. See Section 3 for chemical specific data.

Aquatic Eco toxicity

Section 13 – Disposal Considerations

Waste Disposal:

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

Disposal methods:

Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor.

Waste, residues, empty containers, Discarded work clothes and contaminated cleaning materials should be. Collected in designated containers, labeled with their.

Contents: Incineration or landfill should only be considered when recycling is not feasible.

General: For limited quantity packaging/limited load information, consult the relevant modal documentation using the data shown in this section.

Proper Shipping Name: Environmentally hazardous substance, (contains oxides, silcazel, additive

Section 15 - Regulatory Information

National regulations

Health and Safety at Work etc. Act 1974 (as amended). The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"]. EH40/2005 Workplace exposure limits.

EU legislation

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended). Commission Regulation (EU) No 2015/830 of 28 May 2015. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended). 15.2. Chemical safety assessment No chemical safety assessment has been carried out.
